

William Larson for Class Senate

- **Improved Bathrooms and Water**
 - Enclosed showers in all freshman dorm bathrooms.
 - A place to put your shower caddy in Baldwin showers, and any shower that has too small a soap holder.
 - More fill up stations for water bottles, and improved filters for current ones.
 - Motion activated lights in the bathrooms to save electricity.

- **Campus Beautification**
 - Community gardens for every dorm where students can grow flowers, herbs, and produce.
 - More plants on campus to make it greener, and more appealing to look at.
 - Raised garden beds outside of academic halls.

- **Inclusion**
 - Increase student involvement in ASG.
 - Create a method for students to easily contact and discuss ideas with their representatives.
 - Make senators responsible for listening and communicating with their constituents after election.

- **Air conditioning**
 - Baldwin is a boiler room in the summer, and this affects students' mood, sleep, and health. We're living in the 21st century, and we need air conditioning.
 - We need to look into the logistics, and pricing involved in installing green, efficient central air in every dorm.
 - Until a long term solution can be found dorms should be supplied with box fans for their windows.

Biography:

Howdy class of 2023,

My name is William Christian Larson, but y'all can call me Chris. I'm running for freshman class senator. Here's some stuff about me. I'm a Floridian, born and raised so my talents include swimming during hurricanes, and coleslaw-wrestling alligators. My favorite color is dark red, and my perfect date involves a moonlit walk down a beach. My reason for running for senator is simple. I want to make Allegheny better. I want to make our bathrooms cleaner. Our campus more beautiful, and I want to let all of you be involved in that. If you vote for me I'll do my best to improve our school.

If you ever wanna contact me I'm probably stuffing my face at McKinley's or you can send me an email at larsonw@allegheny.edu
