

Hey Guys! My name is Daniella Clarke and I am currently a junior here at Allegheny College. I am currently a Neuroscience and Psychology major and an Economics minor. I am also a part of the Allegheny Law and Policy Program. I am currently involved in the Advancement of Black Culture as the Vice- President, the Rotary Club as the Secretary. I also currently sit on the Public Event and Finance committee chair. I wanted to join the senate because it will be an excellent opportunity for me to see beyond the schoolwork, giving me an opportunity to see ways in which I can see what I can do for my student body. I am also very passionate about social justice / social change and I wanted to be a part of an organization that can be the change that we wanted to see on campus. I believe that being a part of the Senate can teach me the value of teamwork, while we can all probably can things done on our own it becomes so much more meaningful and impactful when we do them together as one. Giving back to others means so much to me and I believe this is an opportunity for me to give back to Allegheny after all that it has given me. While serving on the Senate, I have worked together with my fellow senates to create a better space for all Allegheny students.

My Platform:

- **Support for Underrepresented Students:** It has been a long time coming with this issue, while there may be process we still have a long way to go before we can create an equal playing field for all our students. As a senate, I will try my best to work with school officials to bring light to issues facing minority students to create a better environment not only on campus but in the Meadville community as well.
- **Mental Health Awareness:** Mental Health continues to be a major issue in our world and on college campuses all around American. As a senator I plan to try remind students of all the resources on campus that are there to ensure the safety of students mentally and emotionally. Along with that, I would like to create creative ways in trying to engage with students allowing them to feel comfortable in sharing their stories or have something/ someone to turn to in times of distress.
- **Accessibility to the community:** Meadville is a very tight knit community, which means many activities for students are not as close to campus as it would be in bigger towns/ communities. As a senate, I would try to work with Allegheny in making it more accessible for students who may not have a vehicle be able to enjoy the town of Meadville without restrictions or feeling stuck on campus. Also, trying to work with them in connecting with other universities or organizations in ensuring our students always have something to do
- **Student Affairs:** There has been so many changes, that have occurred in our time here at Allegheny, I will work our school officials in try to bring to light issues such as academic changes

to the curriculum, tuition increase, meal plan options, and other business that prevents our students from feeling comfortable here at Allegheny.

***PLEASE LET YOUR VOICES BE HEARD!! DON'T FORGET TO
VOTE ON APRIL 23-24!***
