

ALLEGHENY COLLEGE

Class of 2023 Student Government

About Me:

Hi! I am **Andi Reiser** and I am running for the **Class of 2023 Senate** for the 2019-2020 school year! I am from Pittsburgh, Pennsylvania which is only an hour and a half away from Campus. Here at Allegheny, I am involved in the Law & Policy program, which is something that is very important to me, as my career aspirations include working in Law & Politics. I hope that while learning more about me, as well as my platforms, you consider giving me your vote to help make this year awesome!

Experience:

- Throughout high school, I was involved in the student council general assembly where I helped to organize fundraisers and raise money and awareness for people in need and for the Children's Hospital of Pittsburgh.
- I was also involved in the Future Business Leaders of America club. I was Vice President my sophomore year and President my junior and senior years. During this role, I helped to organize trips to major cities such as Boston, DC, and NYC, where we met with

major businesses such as Under Armour, Digitas, and The Associated Press.

- My senior year, I also helped to rejuvenate the Environmental Club and became the President. This gave me experience with creating and leading clubs that mean a lot to me.
- Lastly, Junior year of high school, I was the captain of my Lacrosse team and helped to lead my team to a nearly undefeated season.
- I believe that all of my experience proves that I am capable of making Allegheny College a better place through my determination and communication skills.

Platform:

- **Stop the Stigma:** Student health and wellness is one of my top priorities. As freshmen, we are still acclimating to a new environment and life away from home. I want to ensure that all of you feel that you have somewhere to go when anything is going on in your life such as stress with classes, home sickness, or even when you just need to vent. I want to stop the stigma surrounding mental health and bridge the gap between students and the resources they need to succeed.
- **Unity and Inclusion:** Being apart of a diverse college such as Allegheny, it is important to have student government officials who represent that diverse student body and its opinions as one.

As freshmen, this new atmosphere can be stressful. It is important to have leaders who build school and class spirit and pride throughout Allegheny College. If elected, I will work to build unity, inclusion, and class spirit by hosting regular (but optional) events in order to bring us together and help facilitate connections between one another.

- **Being Your Voice:** As freshmen, you might feel as though your opinion doesn't matter, but it DOES. If I am elected to senate, you should feel as though you can come to me with any concerns or new ideas. I am your voice, I will listen, and I will advocate for YOU.
